Cancellation/Refund Policy: Cancellation made up to the deadline will result in a full refund less a £25 processing fee. **NO refunds are made for later cancellation.** We require this advanced registration to allow for the cancellation of any event 3 weeks in advance, should it be under-booked by practitioners or patients, with full refund to you.

Patient Consult Info:

Patient consults should be booked directly with Fereshteh as soon as possible.

Patient consult slots are booked for: 09:15am; 10:45am; 12:15pm.

Practitioners will treat their own patients under tutor supervision so please bring your clinical supplies and the patients' files for you to refer to during all discussions. Please fully explain the set-up to the patient(s) you want to bring; it won't work if any patient refuses to have observers, for example.

Cost for the patient consult: £75 payable on the day by cash or by cheque from the practitioner (I can not accept patient cheques in case they bounce). Please note that the practitioner is liable for this fee from when you have booked the consult slot in the event of any cancellation or no-show of your patient, so you may prefer to collect this from your patient once the appointment has been booked!

Please note: this clinical event will not go ahead without participating practitioners bringing most if not all of the 3 patients per day! It is not the responsibility of Fereshteh to provide the patients. The learning is much greater for all if a range of practitioners bring & treat patients. If you need help knowing how to enrol your patients, please talk to Fereshteh who has successfully brought patients for consults with me for years.

For all further queries including accommodation and parking details preferably email Fereshteh directly (not me) or phone 07989 353 909. Do feel free to pass this information on to interested colleagues.
